FOR COACHING CENTRES · HINDI + ENGLISH

Your question paper. Live on every student's phone.

पेपर आपका। टेस्ट ऑनलाइन। रैंक पूरे बैच की।

Turn your PDFs into online live tests, mark every answer automatically and rank your whole batch — in Hindi and English.

Upload once. AI reads every question.

PDF, photos, Word or CSV. Review and edit every question before you publish.

One paper. One time. The whole batch.

Server-timed, so nobody gets extra minutes. Hindi ↔ English in one tap.

Marks and ranks, automatically.

Results unlock when the live window closes; the leaderboard follows 3 minutes later.

HOW IT WORKS

From your PDF to a ranked batch.

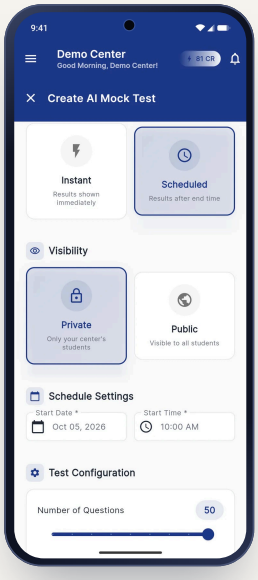

One app for your whole centre — from the question paper to the leaderboard.

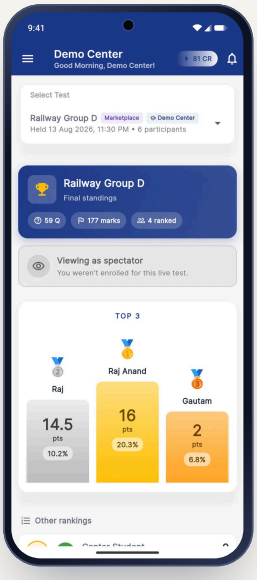

1 The + button

2 AI reads the paper

3 Schedule live

5 Leaderboard

---

1 Create once. Teach everyone.

One + button: a full mock test from your question file, a topicwise test from a PDF with an on-screen OMR sheet, or AI MCQs from a chapter. Plus lecture videos and notes for your batch — keep them for your centre or make them public, free or paid.

2 Upload once. AI reads every question.

Drop a PDF or photos of your paper — or a Word or CSV file. Review and edit every question before publishing.

3 Schedule it live.

Pick the date and time. Students get a notification, and a reminder 5 minutes before it starts.

4 One paper. One time. The whole batch.

Server-timed, so nobody gets extra minutes. Join late and you only get the time left. Bilingual papers switch Hindi ↔ English in one tap.

5 Ranks the moment results open.

Results unlock when the live window closes; the leaderboard follows 3 minutes later. Only each student's first live attempt is ranked.

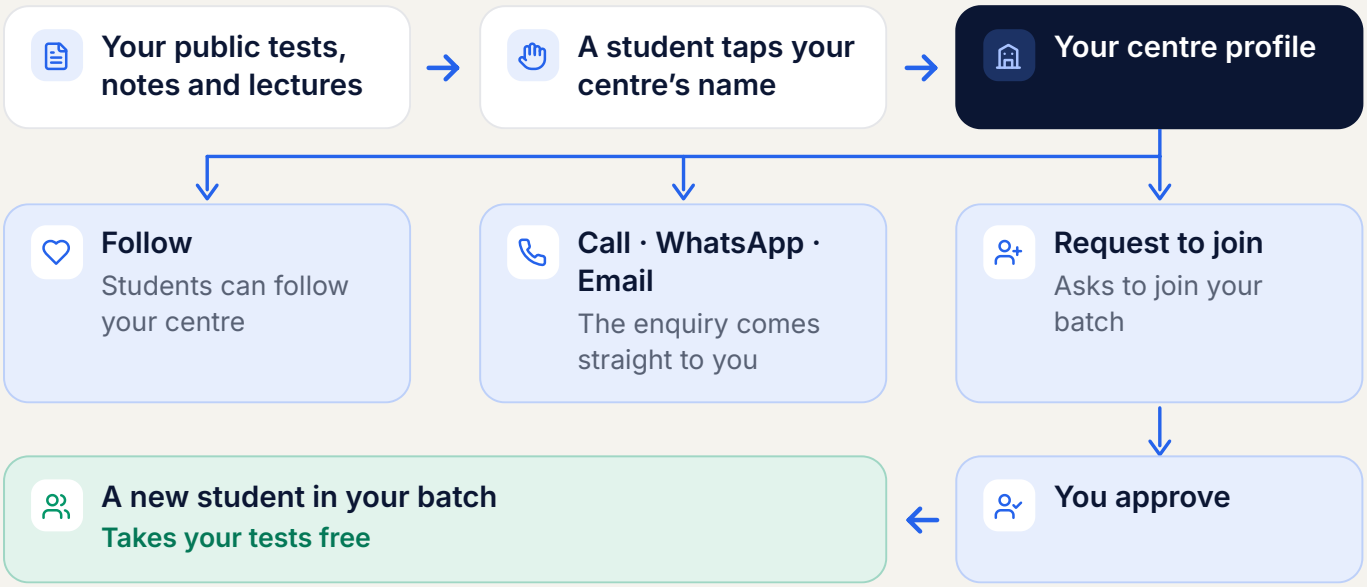

6 Your centre at a glance.

Every test: who attempted, who didn't, average score and pass rate. Every student: their full test history.

GET DISCOVERED

Your free test is your advertisement.

Every public test — marketplace or topicwise — and every public note or lecture shows your centre's name. One tap takes a student to your centre profile.

Sell tests beyond your batch
Put paid tests in the marketplace for outside students — or free ones that bring them to your profile.
